D. Special Regulations

1. Big Game Tagging – It is unlawful to move, transport, or field dress any big game animal, except for feral hogs, without invalidating and attaching a properly completed temporary kill tag. If additional animals are to be harvested on that calendar day, the hunter is not required to stop hunting and tag the animal until he/she is ready to move, transport, or field dress the animal. All animals harvested must be accompanied by one tagged animal and must be taken together to the nearest big game checking station by the most reasonably direct route where one new temporary kill tag will be issued. The permanent harvest tag is a legal document and must be signed by the hunter. By signing the permanent harvest tag, the hunter is affirming that the information, as it appears on the permanent tag, is correct and valid. The permanent game tag must remain with each carcass until final processing. Persons legally hunting without a license are also required to take any big game animal harvested to a check station. After receiving a temporary harvest tag from checking in their first kill, these persons must comply with all tagging regulations. All big game taken to a taxidermist to be mounted must be accompanied by documentation showing the permanent game tag number, checking station number, and date of kill.
