A Scheme of the Lives of the Patriarchs from Adam to Moses.

Adam lived till Lamech was 38 years old. They lived till Lamech was 98. Adam had seen the state of things before the flood. His mind was well furnished with the means of instruction in those times. Adam saw 9 generations, including himself. They saw eleven.

The figures on the scale signify so many hundreds of years. The spaces containing their names represent the length of their lives. The figures before the spaces show the years of the world when they were born; those within the years they lived; those after when they died.

The dotted line points at the time of the flood in the year of the world 1656. The other at the giving of the law in the year of the world 2513.
